

# Superior KeyPad Plus Jeweller

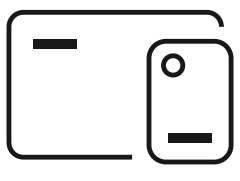

Wireless keypad with touch buttons, supporting authentication via Pass, Tag, and codes

This is a device of the Superior product line. Only accredited Ajax Systems partners can sell, install, and maintain Superior products.

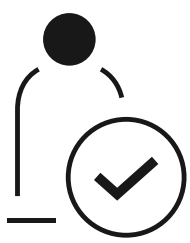

## What's new

BASELINE KeyPad Plus Jeweller	SUPERIOR Superior KeyPad Plus Jeweller
Auto-wake is not supported	Auto-wake on entry delays <sup>1</sup>
Common battery	Enhanced battery
Available for all PROs	Available only for accredited partners

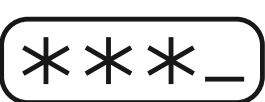

### Contactless authorization

- Support for Ajax Pass cards and Tag key fobs to manage security modes
- DESFire® technology for fast and secure users authorization
- Auto-wake on entry delays
- Remote access control

### Control with access codes

- Three code types: keypad code, personal user codes, and codes for unregistered people
- All codes can be changed remotely in Ajax apps

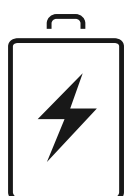

### Sabotage protection

- Protection against the use of third-party access devices and code guessing
- Tamper alarm
- Device authentication to prevent spoofing
- Holding screw to secure the device on SmartBracket
- Duress code

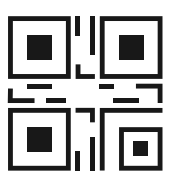

### Jeweller communication technology

- Up to 1,700 m (5,550 ft) of radio communication in open space
- Data encryption throughout the transmission process
- Regular polling to display the current device state

### Flawless autonomy

- Up to 3 years of battery life
- Low battery notifications
- Energizer pre-installed batteries

## Quick installation and setup

- Adding to the hub via QR code
- Remote control and configuration in Ajax apps
- Effortless installation and replacement
